## Smooth running control: correction value

|                                                                                                               |           |
|---------------------------------------------------------------------------------------------------------------|-----------|
|                                                                                                               |           |
| Cylinder 1                                                                                                    | 000.08 %  |
| Cylinder 2                                                                                                    | -000.28 % |
| Cylinder 3                                                                                                    | -000.17 % |
| Cylinder 4                                                                                                    | 000.11 %  |
| Cylinder 5                                                                                                    | 000.29 %  |
| Cylinder 6                                                                                                    | -000.03 % |
|                                                                                                               |           |
| Wait until the actual values of the correction for smooth idle control are correctly displayed.               |           |
|                                                                                                               |           |
| The correction values of the smooth idle control are zeroed by pressing key F5 if the engine is switched off. |           |
